

WASTE MANAGEMENT PROJECT

- ❖ Intervention area: Sada, Vasco (**Mormugao Taluka**)
- ❖ **Total Project Cost: Rs.110.32 lakh**

Innovation

- ❖ Centralized Sorting Station for Dry Waste with 3R Strategy -**Reduce, Reuse, Recycle.**
- ❖ **Purpose:** Dry waste is segregated into recyclable and non-recyclable waste. Recyclable waste sold to recyclers and non-recyclables are baled and transported to cement factories for Co-incineration.
- ❖ Revenue opportunity by recycling waste such as plastic bottles, tins, Metal PVC glass etc.
- ❖ Project is now being undertaken by UNDP.
